

# 2018-05-27 CLEAR address change

Sunday, May 27, 2018 09:40

## Portnox CLEAR address update

Dear customer,

We would like to inform you that we found your organization is using an old instance of our CLEAR services and would like to ask you to update to our latest instance address which include enhanced features. Please note that we will no longer update our old instance and will delete it in the near future.

As this change requires coordination and update of your NAS clients as well as your CLEAR environment, please contact us to plan and execute this action.

Thank you,

Idan Blum  
Director
